BRICKS TOWN
FROM THE PAST

Retro LEGO® town from the ’80s and ’90s

A complete, working town built from sets of that era and our own creations in the same style – a ready-made attraction for your event.

5.5 × 1.5 m
a whole town on one table

150+

6 + monorail
trains on the tracks

ONE OF A KIND

Only bricks from the ’80s and ’90s

Bricks Town from the past is a town built **exclusively from original LEGO® elements from the ’80s and ’90s**. It features sets from that era alongside our own builds in the same style – like the speedway stadium.

The layout includes Town and Train sets from the classic LEGO® System, including **Light & Sound** – with lights, sounds and mechanisms that gave these toys remarkable realism.

For older visitors it brings back childhood memories. Younger ones see what their parents played with at their age.

7722 · steam locomotive from 1985 – still running

A freight terminal straight out of a ’90s catalogue

SCALE

A whole town. On one table.

A complete town laid out like a real one – with a harbour, town centre, industry and an airport – surrounded by a loop of track. It can be viewed from every side.

Adventure and leisure

Bricks Town is built like a real town: it has 14 themed zones, and each one tells its own story.

Harbour – ships load cargo straight from the train

Beach and restaurant – a holiday by the bay

Treasure island – pirates, treasure and forest people

River – a perfect weekend rafting trip

Riding stables – rides and show jumping

Housing estate – coffee in the garden

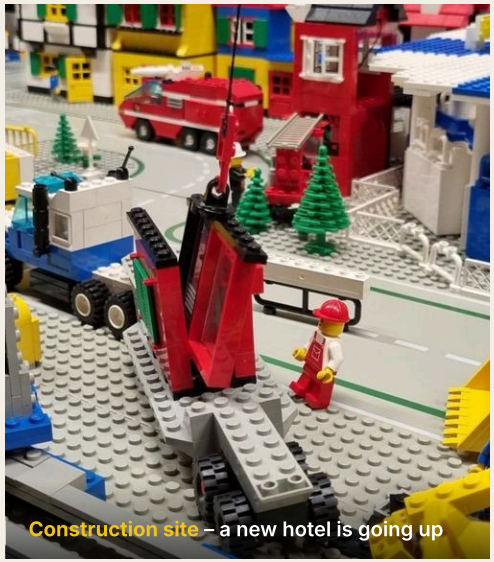

A town buzzing with life

Plus a hospital, a multi-storey car park by the station, a second station next to the airport and a railway running around the whole town.

Old town – a bike race between the townhouses

Police and fire brigade – always on standby

Industry and incinerator – containers on the move

Construction site – a new hotel is going up

Speedway stadium – racing in front of packed stands

Main station – travellers waiting for their train

Airport – there's always someone landing

Monorail – straight to the airport

RAILWAY

Three generations of LEGO® trains

6 trains run on the layout, from the “grey track” era – 4.5 V and 12 V – and the 9 V system of the ’90s, including the iconic Metroliner.

12 V runs on original points and signals – few people have ever seen them working live.

9 V has points switched by our own custom system – because building with bricks has always been about creativity.

7722 · steam locomotive · 1985 · 4.5 V

4551 Crocodile · 1991 · 9 V

4558 Metroliner · 1991 · 9 V

7745 City Express · 1985 · 12 V

TOWN LIFE

Lots of little stories

The best things are only visible up close. Something is happening in every corner of the town – just lean in.

Expected a perch… caught a shark!

Police diver – headfirst!

Dinner for two, the waiter is already pouring

A letter to Grandma – just in time

Don't worry, the fire brigade is here!

The morning bin lorry round

Astronauts on a trip to town

Live interview for local TV

Something cold at the beach bar?

Oops… the cargo spilled out of the wagon

AT YOUR EVENT

A ready-made attraction that makes everyone stop

01

Viewed from every side

Once it's set up and running, the layout is ready to go. Visitors walk around it, hunt for details and stay longer.

02

For two generations

“I had this one, and I always wanted that one” – adults reminisce while kids discover how things used to be.

03

A town in motion

Trains and the monorail run all day, and there's always something new to spot in the scenes.

04

Promotion on our channels

We announce your event on @brickstownfromthepast and share a recap. Visitors' photos are extra content for you.

OPTIONAL

Custom scene – we'll build a scene linked to your event or an organiser's idea.

“Find it on the layout” card – a hunt for hidden details for the youngest visitors.

EXPERIENCE

Proven at four major exhibitions

The full layout has been shown in Poland and the Czech Republic, where visitors admired its size and uniqueness. Selected zones were also exhibited in Pszczyna, Gliwice, Rzeszów and Tarnobrzeg.

LOGISTICS

WE PROVIDE	YOU PROVIDE
Transport of the complete town	Tables min. 1.8 × 5.8 m – ideally as an island with access from every side
Setup (approx. 8 h) and teardown	230 V power
Staff at the layout at all times	Barriers or tape to mark off the area

CONTACT

Take your visitors back to the ’80s and ’90s

Get in touch – we'll walk you through the details and work out where the layout will look best at your event. Check out our social media too, where we show the town in motion.
